## Introduction

**AUTHORITY AND SCOPE**—The Economic Censuses are required by law under 13 U.S.C., sections 131, 191, and 224. The 1967 Census of Business portion of the Economic Censuses consists of firms engaged in retail trade, wholesale trade, and selected services (hotels and motels; personal, business, and repair services; and amusement and recreation services including the motion picture industry) which operated in the United States. In addition, the Census of Business covered public warehouses, dental laboratories, law firms, architectural and engineering firms, travel agencies and truck and bus carriers not subject to economic regulation by the Interstate Commerce Commission. Data for the contract construction industry also were collected in this Census but published in a separate series of reports. The Census of Business also covered Guam and the Virgin Islands. A separate 1967 Census of Business, Manufacturers, and Construction for Puerto Rico was conducted jointly with the Commonwealth Government.

**KINDS OF BUSINESS COVERED**—Retail trade as defined in the Standard Industrial Classification (SIC) Manual<sup>1</sup> includes all establishments primarily engaged in selling merchandise to personal, household, and farm users. In this report, liquor stores operated by State and local governments have also been in-

cluded in Retail Trade statistics. The basic retail trade tabulations do not include data for post exchanges, ship stores, and similar establishments operated on military posts by agencies of the Federal Government. A separate presentation of the data for such establishments appears in table 17 of this report. Neither do the basic tabulations include data for administrative offices, captive warehouses, and other units which service or are auxiliary to retail establishments within the same organization. See the Kind-of-Business Classifications section of appendix A for definitions of the kind-of-business categories for which data are shown in this report.

**CENSUS DISCLOSURE RULES**—In accordance with Federal law governing census reports, any data which would disclose the operations of an individual establishment or business organization are not published. However, the number of establishments in a kind of business is not considered a disclosure, so that this item may appear in instances where other items of information for the same kind of business or locality are withheld.

**CORRECTIONS TO DATA**—Data in this report comprise the statistical portions of previously published reports (Series BC-RA). Errors found after the final publications were issued have not been carried to specific areas in this report unless they significantly affect the data for such areas. As a result the detail in some tables may not add to totals.
